

Information Security Analyst

Are you tired of doing the same mundane thing day-after-day? Do you feel like you're only known by your employee number? Are you ready to make a difference in the lives of law enforcement and the criminal justice community?

Nlets, the International Justice and Public Safety Network is seeking a highly qualified Information Security Analyst to join our team. Our mission is to provide an international justice telecommunications capability and information services that will benefit to the highest degree, the safety, the security, and the preservation of human life and the protection of property. An Nlets employee recently stated **"One of the great rewards of working for Nlets is the challenge of meaningful work and the value of making a difference."**

Using leading edge technology, we pride ourselves on working collaboratively in a casual work environment. Agile methodology is embraced and innovative ideas are celebrated. As part of the Nlets family, you will be rewarded with a generous compensation and benefits package, including perks such as covered parking, fitness room, casual Friday's, team building events, etc.

Key Areas of Responsibility

- *Security monitoring and incident management, through the use of a security event management system, intrusion prevention systems, vulnerability scanning tools and end point security solutions*
